Our VISION:

Bridging the gap between the Consumer and Event Managers by providing users a number of options of the Event Managers to choose from.

Whom is it for?

For the users looking for all the Event Managers at one single place.

For the Event managers, to showcase their work more publically and for the advertisements.

Alternatives available... To our knowledge we have not seen any application providing such platform. So we are addressing the same problem as our project, with a hope to come up with some solution.

Project Architecture

- We propose creating the web Application using XAMPP and CodeIgnitor as our MVC framework, as it is one of the most popularly used technologies.

Risks And Challenges

Maintaining Data Integrity.
